More Information

If you're like me, I was going crazy dealing with the cash in my retail locations. My life changed after I put the CIMA cash machines in. Cash is secure, my staff is on the floor with customers, not dealing with cash issues in the back-office. I would never open a store without these!

Tim Denha, CFO
JARS Cannabis

CIMA cash management solutions for cannabis dispensaries eliminate most of the manual work of dealing with cash:

- Create till floats in under a minute -- no need to prepare till floats manually into separate bags
- Get change when you need it, quickly and directly from our machines
- Deposit surplus funds from the tills directly into our machines
- Deposit end-of-shift funds into our machines without manually counting
- End-of-shift, end-of-day reports provide complete visibility of all transactions at any time
